Engine NA
Price \$ 3,500
Beam NA
Draft NA
Sail Area NA

Comments

An unusually well kept 86 laser that is still competitive and was only occasionally used in collegiate races. It is in superb condition with smooth, dry hull, no soft spots, no repairs and good mast pocket. It has always been covered and garaged and stored on a custom steel gunnel support road trailer with a neat cradle for the included Seitech dolly that can be used to carry a second Laser. Has a radial and full rig with two booms. New (unnumbered) Intensity standard main, a nearly new laser Radial sail and an older practice standard main. Deck hardware has been updated and all lines are practically new. Good glass blades, glass tiller with several new and taped carbon tiller extensions and lots of extra goodies like new boom caps and stick on sail numbers. It has been covered in a shed made just for it for a decade. My son moved to Australia and I gave up dinghies to race big boats long ago. This boat is as good as much newer boats and is a really great setup for racing. Little if anything needs to be done on it other than getting the trailer re-registered. First \$3500 tows her home. Located in Menlo Park, California
